SYRUP OF FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

Children Cry

for PITCHER'S

CASTORIA

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to affections of children." ALEX. ROBERTSON, M. D., 1087 2d Ave., New York.

"From personal knowledge I can say that Castoria is a most excellent medicine for children." DR. G. C. OSBORN, Lowell, Mass.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

SEEKING THE PRIZE.

The Speakership Contest Growing Warmer.

MR. CRISP SEEMS THE LEADER.

Still the Result is Untold and Mills, McMillin, Hatch, Springer, Wilson on Holman May Be the Next Speaker

WASHINGTON, Dec. 3.—The usual crowd of members and others filled the rooms of the various speakership candidates yesterday. The character of the gossip on the chance of the individual candidates depended very much on whose rooms the gossip happened to be in at the time.

CHARLES FREDERICK CRISP.

Some of the Georgian's ardent supporters placed his lead on the first ballot at more than 30 votes over Mills, but more conservative adherents gave him from 20 to 25 votes in the lead. The Crisp people firmly believe that their candidate cannot be beaten unless some prearranged combination is effected, and they fear that some such arrangement will be attempted by the McMillin and Hatch factions.

ROGER QUARLES MILLS.

If Mr. McMillin finds that he cannot win he will give his vote to Mr. Mills and endeavor to carry his own support with him. This, the Crisp men say, is impossible, because many of Mr. McMillin's southern supporters will naturally favor Crisp. The Mills people profess to believe that nearly every supporter of Hatch will come into the Mills ranks after the first ballot.

DENTON McMILLIN.

How Mr. Springer's supporters will go in the event of the withdrawal of their candidate is involved in too much uncertainty to be predicted with any accuracy. But if the combination of Illinois, Iowa and Michigan, heretofore referred to, is effected, the Mills boom will be inflated to a degree that will, in all probability, bring to the Texan's aid many supporters of other candidates who are undecided as to a second choice.

WILLIAM HENRY HATCH.

It is asserted, however, on very good

authority, that at least half of the Missouri delegation will go to Crisp if Hatch is withdrawn. In Mr. Crisp's strength on the first ballot lies his greatest danger and, unless he will have a large plurality over Mills, there is reason to believe that the western and southwestern men will combine to defeat him. But speculation is not certainty, and the nearest estimate that can be made with accuracy is that given in this dispatch.

Representative W. L. Wilson, of West Virginia, who was mentioned for speaker some time ago without any assent on his part, arrived in Washington yesterday morning and left for his home in the afternoon. Mr. Wilson told a United Press reporter that he would vote for Mr. Mills.

WILLIAM M. SPRINGER.

The latest addition to the public stock of rumors ascribes to the friends of Judge Holman, of Indiana, the intention of springing him upon the caucus as an eleventh-hour compromise candidate. The unexplained delay in the arrival of Mr. Holman in Washington is referred to in support of this theory. On the other hand it is pointed out that Mr. Holman's known opposition to all appropriations for river and harbor and other internal improvements, would make his candidacy unpopular in those sections of the country where such improvements are to be asked for. The arrival of Judge Holman is looked forward to with much interest by the adherents of the various speakership candidates, and with this interest is mixed a certain amount of trepidation, for the Indiana congressman is considered a power in the land in connection with the battle.

WILLIAM L. WILSON.

As chairman of the Democratic caucus, a position that places him as the leader of his party in the house in undetermined matters of party policy, Mr. Holman entered into correspondence, soon after the election of 1890, with the Democratic members elected to the Fifty-second congress for the purpose of obtaining their views on party questions. Mr. Holman is said to have kept himself well informed on the progress of the speakership fight, as his well known astuteness has gained for him among the Democratic members such a reputation that any declaration on his part that any particular candidate will secure the speakership honor that it is believed such a statement would carry with it for the candidate pointed out the votes of a large number of members who are anxious to be on the right side.

Again it is believed that Mr. Holman's extensive acquaintance with the Democratic members, obtained through correspondence and by personal contact, will enable him to influence a large number of votes in whatever direction he desires.

Important Meeting of Physicians.
COLUMBUS, Ind., Dec. 3.—The Mitchell District Medical society meets here in semi-annual session Dec. 17 and 18, and visiting physicians will be tendered a grand banquet at the St. Dennis hotel. It is expected that 200 physicians will be in attendance, among whom will be some of the most prominent medical lights of Cincinnati, Indianapolis and Louisville.

Shot Himself in Jail.
FREMONT, O., Dec. 3.—While confined in the police station here Charles Bruner attempted his life by shooting himself with a pistol. The ball entered just above the heart. Bruner cannot live. He was arrested here on an order from the Norwalk police, where he was wanted for obtaining goods under false pretenses. He has served seven years in the penitentiary.

A Threatened Strike.
CLEVELAND, Dec. 3.—Two hundred and fifty Big Four switchmen threatened to strike yesterday because Conductor Moorehouse was appointed yardmaster. He is a non-union man and has never served as a switchman. The men laid their grievances before Superintendent Stedwell, but were induced to remain at work until a committee could meet the officials.

THE CARRIER SYSTEM

Work of the Free Delivery Branch of the Postoffice.

THE ANNUAL REPORT SENT IN.

Over Five Hundred Free Delivery Offices in Operation at the Beginning of the Fiscal Year—Suggestions Made to Improve the Service.

WASHINGTON, Dec. 3.—W. J. Pollock, the superintendent of the free delivery system of the postoffice department, has made to First Assistant Postmaster General Whitfield his report for the fiscal year ended June 30, 1891. It shows that the number of free delivery offices in operation at the close of the year was 519, an increase of sixty-five over the preceding year. The cost of this service was \$9,072,060, which is \$22,424 less than the appropriation for that purpose. The number of carriers employed on June 30 was 10,120, which is an increase of 1,064 during the year. The local postage for the year amounted to \$11,174,754. The number of pieces of mail handled was 8,606,354,820.

Considerable attention is given in the report to the subject of over-time claims of letter carriers, under the act of May 24, 1890, limiting the hours that carriers shall be employed per day. The practical result of this act, the report states, has been the filing of an enormous number of over-time claims, aggregating nearly \$500,000, and this does not by any means represent the maximum amount of claims that are already prepared and will be filed as soon as an adjustment of the legal questions pending has been had. So many important questions relating to the construction of the act have arisen in attempting to adjust these over-time claims that it has been deemed best, in the interest of the service and also an act of justice to the carriers, to await a construction of the law by a court having a competent jurisdiction.

The report then goes on to say: "In view, however, of the tendency of the law to create these overtime claims, and the certainty, judging from past experience, that they will arise as long as the existing system continues, and with the further unfortunate experience that the law puts a premium on loitering and inefficiency rather than affording an incentive for active and efficient work. I respectfully suggest a modification of the existing law that shall provide:

"First—That no carrier shall be required to work in excess of fifty-one hours in any one week of seven days at offices having necessary and unavoidable Sunday service, and not in excess of forty-eight hours in any week of six days where such Sunday service is not required.

"Second—That in addition to the salaries now provided by law, letter carriers, after four years' service, may, upon a certificate of the respective postmasters that they have been especially faithful and efficient, be promoted from \$1,000 to \$1,200 per annum, and that when letter carriers become unfaithful and inefficient or unfit for active work, they shall, upon the certificate of the respective postmasters to that effect, be reduced to a lower grade commensurate to their service, or removed, as the equities of their case may suggest.

"Such an amendment would not only provide a just recompense to faithful and deserving carriers now in the service, but would tend to enlist some of our ablest and best young men, and stimulate all the carriers to earnest efforts in this important branch of the public service. In many of our offices a large number of men impose on the younger men, who are working at a minimum compensation, the great burden of the work."

CHILIAN SITUATION.

Balmaceda's Money No Good—The Baltimore Trouble Not Yet Settled.

VALPARAISO, Dec. 3.—The Chilean supreme court has decided that the members of congress under the Balmaceda administration cannot be held responsible financially for the paper money alleged to have been unlawfully issued by Balmaceda during the revolutionary struggle.

Since the arrival of the United States cruiser Yorktown the subject of war with the United States is generally discussed. Before the approach of the Yorktown was announced, the judge of crimes was about to close his examination of the killing of the Baltimore sailors, but he suddenly concluded to prolong the affair, and also to make a show of taking the sailors' side of the case.

A Case of Suspended Animation.
WASHINGTON, Ind., Dec. 3.—Nicholas Hartig, a prominent citizen and one of the leading millers here, awoke yesterday morning, and upon trying to awake his wife found that she was apparently dead. It was so announced, but late last evening the body was still warm, and a looking-glass held close to the woman's mouth showed moisture. Some think she is not dead, but that it is a case of suspended animation. The night before her death she retired in her usual good health.

Grand Army Posts Object.

INDIANAPOLIS, Dec. 3.—Soon after the death of Governor Hovey a number of business firms displayed photographs of the deceased in the windows with heavy borders of black, and made them the means of advertising their business. Last night the Grand Army posts discussed the matter and passed resolutions to boycott all firms thus using the deceased executive's picture for advertising purposes.

PARIS, Dec. 3.—A serious fire yesterday destroyed two floors in the west wing of the town hall at Bordeaux. The hall in which civil marriages are held was also damaged.

OLD AND NEW WAR VESSELS.

Recommendations of the Chief of the Bureau of Construction.

WASHINGTON, Dec. 3.—Commodore Theodore Wilson, chief of the bureau of construction, in his annual report to the secretary of the navy, recommends that the Galena be sold as useless to the government and a source of expense. The single-turret monitors now in the James river, the report says, should be repaired or sold. For a comparatively moderate sum they can be made useful adjuncts to whatever other means the country may possess of repelling an enemy, their shallow draft rendering them especially adaptable for service in the smallest harbors of our own coasts, which sea-going armored vessels of modern design cannot enter on account of their great draft, and where consequently they would only be exposed to the attacks of unarmored cruisers.

Touching the old wooden navy, the report says: "These vessels are rapidly disappearing from active service. Only twelve are now available for cruising purposes and they, within five or six years, will be mustered out."

New Vessels.

Concerning the vessels of new construction, the report speaks of the usefulness of torpedo cruisers, such as engaged and sunk the Blanco Encalada in the Chilean war, and, after recounting the fact that the department has been unable to secure bids for the construction of such a vessel within the limits of the appropriation of \$350,000 made by the last congress, recommends that the appropriation be limited to \$512,000. At this price a vessel of 750 tons may be obtained, capable of running twenty-three knots an hour and of keeping at sea. Stress is laid upon the significance of the contract made for the construction of torpedo boat No. 2 with the Iowa iron works, as it indicates the possibility of building these valuable crafts at safe inland points. The report states that contracts have already been made for 1,210 tons of the 15,945 tons of armor required for the vessels now building.

Copper Sheathing Necessary.

Seizing the opportunity afforded by the unfortunate experience of our steel cruisers in Chilean waters, the report treats at length of the necessity for sheathing the bottoms of steel vessels. It says: The importance of the preservation of the bottoms of steel vessels from corrosion and fouling can hardly be overestimated, and is continually emphasized by the reports of loss of speed and increased consumption of coal received from our new unsheathed steel vessels now in commission. Unless we are willing to admit that the role of our cruisers in time of war shall be entirely confined to cruises of short duration in the neighborhood of our own ports, it would appear that they are deficient in a most important quality, namely, the ability to maintain high speed at sea for long periods of time.

Reference is made by the valuable data bearing on this subject collected by naval constructor Philip Hirschhorn, and an earnest recommendation is made that congress adopt his conclusions, summarized as follows: First, All cruising vessels intended for general service in foreign waters should be sheathed, if above 1,000 tons displacement. Second, Vessels of less than 1,000 tons displacement, intended for general service as cruising gunboats, etc., should be of composite construction, viz: with steel framing, wood inside, planking and copper sheathing. Figures are given to show that Great Britain has adopted these ideas in new construction; that 78 per cent. of it is now sheathed, and that all of the gunboats built since 1886 are of composite construction, enabling them to keep at sea for long periods without docking.

PASSENGER TRAIN WRECKED.

Two Men Killed and Several Others Seriously Injured.

NEW YORK, Dec. 3.—A local passenger train bound for Tuckahoe, which left the Grand Central depot at 5:10 o'clock yesterday afternoon, was wrecked at the junction of the New York Central and the Harlem railroads, at One Hundred and Forty-ninth street. Two persons—William Fleming and an unknown man were killed—and several others were slightly injured. The train left Mott Haven station on time and was running rapidly when the junction was reached, eleven blocks beyond. The switches were turned properly and were safely passed by the entire train, with the exception of the last car, which mounted the rails on crossing the frogs, and becoming detached from the forward car, fell on its side.

There were forty passengers in the car, and the wildest excitement ensued. None, however, were seriously injured, and after a time proceeded to their homes. The unfortunate men that met their death were railroad employees who were walking along the track and were struck by the cars as it left the rails. Both were killed instantly and were badly crushed.

College Remembered in a Will.
CLEVELAND, Dec. 3.—Oberlin college is again rejoicing over a handsome bequest. By the will of Rev. C. V. Spear, who died a few months ago while abroad, the college receives \$65,000, subject to small annuities to his wife, child and one friend of the family. Dr. Spear was the donor of the fine Spear library building and the \$25,000 library endowment. It is the second large gift to Oberlin within a month.

Man-of-War Launched.
PHILADELPHIA, Dec. 3.—The armored cruiser New York, designed to be the most formidable as well as the largest man-of-war in the United States navy, was launched yesterday afternoon with appropriate ceremonies at the yard of William Cramp & Sons. She slipped into the water amid the screaming of steam whistles and to the cheers of thousands who had gathered to witness the event.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

THURSDAY, DECEMBER 3, 1891.

The issue of the new Windom \$2 silver certificate was begun by the Treasury Department this week.

The worst thing that can be urged against Congressman Crisp in the Speakership contest is that the New York Sun favors him. He can't help that, however.

A BETTER man than Captain C. M. Phister for wharfmaster can't be found. He has demonstrated his fitness for the position in the years he has held it. He is a candidate for re-election.

The Louisville Times continues to slur some of the Democratic Congressmen of this State. Here's the latest: "The Kentucky Representatives who have gone off after the Georgian and committee favors will find the game not worth the candle."

The Winchester Sun remarks that "it cost the Democratic party of the State \$245,437.60 to support the 39 Republican counties," and then adds: "The Republicans have to be supported some way. The National Government either pensions them or gives them the benefit of the tariff laws to rob the Democratic party of the country. Kentucky prefers to pay them \$245,437.60 directly from the State Treasury."

"It is now as plain as daylight," says an exchange, "that the New York Legislature will be Democratic, and the year 1892 will see popular government established in that State for the first time in many years. The new Legislature will be in political sympathy with the popular majority of 40,000 Democratic votes, and the chains which have hitherto shackled the majority, by means of gerrymandered districts, will be knocked off."

SPRINKING OF Breathitt County, the Jackson Hustler says that "law is more rigidly enforced than at any time since the civil war. The completion of the railroad has brought us in contact with the outside world. The value of property has greatly increased, and our prospects for greater development were never more flattering." And Brother Dickey, of the Hustler, has done as much as any one else, and perhaps more than any other one person, to bring about this splendid condition of affairs in Breathitt.

REFERRING to the Speakership fight the Carlisle Mercury says: "We went out to interview our Congressman's constituency for him and we found they about all agreed that Mr. Paynter should exercise his best judgment in the matter. They wanted a good Democrat, and that was all they would say. And Nicholas has a fairly intelligent set of Democrats too."

Mr. Paynter won't make a mistake, no matter whom he votes for in this contest. Crisp, Mills, McMillin, Springer and Hatch are all good Democrats.

For the Children.

Our readers will notice the advertisements in these columns of Chamberlain & Co., Des Moines, Iowa. From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for our children and we are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost and are recommending it every day.—Centerville (S. D.) Chronicle and Index.

Twenty-five cent, 50 cent and \$1 bottles for sale by Power & Reynolds.

Paid Dearly for Putting on City Aids.

"Middleborough has saved nearly \$11,000 a month by slashing fancy salaries which it had found by sad experience too rich for its purse," says the Courier-Journal. "It had been paying out \$27,613.62 a year for salaries alone—a pretty stiff figure for a town of 3,271, according to the census, or even of 4,000 allowing liberally for errors. It had a street force that must have comprised a great amount of talent, measured by its cost. There was a Street Commissioner at \$108.33 a month, a City Engineer at \$125 a month, an Assistant Engineer at \$75 a month, a work-hand boss at \$70 a month, an assistant boss at \$37.50 a month, and a rodman at \$45 a month. Some of these have been abolished, and the rest cut about in halves. At the same time they dispense with a \$50 Council's attorney, having also a City Attorney, a \$25 City Physician, and a second assistant fire chief at \$50, and cut the City Collector from \$125 to \$82.50, the City Clerk from \$100 to \$42.50, and several others in proportion. That was a lively gait for a small town, even in boom times, and in the light of these facts Middleborough's debt is not a matter of wonder."

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

THE LAURANCE.

A Few Facts About Captain Phister's Elegant New Ferryboat.

Captain C. M. Phister's elegant new steamer, Laurance, is at the wharf, where everything about her is being placed in thorough order preparatory to her succeeding the Gretna Green as the Maysville and Aberdeen ferry.

The genial and high-hearted owner and master is justly proud of his new steamer. She rides the water like a duck. He was kept pretty busy yesterday afternoon showing visitors over the boat. All unite in pronouncing her one of the neatest and most conveniently-arranged ferries they have ever seen.

The Laurance is ninety feet long, has a width of beam of twenty-six feet and is thirty-six feet wide over all. The depth of her hold is four feet. Her motive power consists of one fire-box boiler seventeen feet long, and forty-two inches in diameter. She has two oscillating valve engines; ten-inch cylinders, with a three and a half foot stroke. She is allowed 160 pounds of steam, and there are few ferryboats on the Ohio allowed that much. She has as much power as several of the towboats that pass here. The boilers, engines and machinery were manufactured by the well-known firm of Enos Hill & Co., of Gallipolis. The firm tried themselves and gave Captain Phister the best they can put up.

There are two side cabins—one for ladies and one for gentlemen—each twenty-eight feet long and nine feet wide. They are fitted up with comfortable double-back arm chairs, twenty-eight to each. The cabins are heated by steam. Each opens out to a promenade aft, which is fitted up with seats. The cabins are neatly finished and are provided with several handsome lamps. A small office is fitted up in the front part of the ladies' cabin. This office is very conveniently arranged as a receptacle for small packages, which any one may wish to leave on board. The boat is also provided with a private room for ladies and also one for gentlemen.

The fore-castle is 36 by 41 feet in dimensions, affording ample room for vehicles and animals. There are three two-inch seasoned poplar bulkheads running fore and aft and three sets of hog-chains in the hold, which will give one some idea of the boat's strong build.

The Laurance is of the "boot-jack" or recess wheel pattern, the wheel being in center of the boat, just in the rear of the boiler and engines, and entirely hidden from view. She is made to handle from the pilot-house. A man can stand in the pilot-house and by manipulating some wheels and a lever, he can shut off the steam, turn it on, back the boat or send her forward, just as occasion may demand. Two men make as much of a crew on her as four on the old Gretna Green. The boat has a full outfit of yaws, derricks, life-preservers, floats, etc., and nothing has been overlooked to insure the safety and comfort of passengers. She is allowed to carry seventy-five people at one time. There are but few ferries allowed that number.

The Laurance was built by David Barmore, of Madison, Ind. She cost about \$7,000 all told. Captain Barmore was not rushed with work at the time he built her, and he turned out for Captain Phister an extra No. 1 job.

The Laurance's crew will be composed of the following: Captain M. C. Phister, owner and managing master; William Clephane, pilot; and Arthur Doty, engineer. Mr. Doty superintended the work of putting up her boiler and machinery. She will be ready for business in a day or so. The old ferry, Gretna Green, that has done faithful service for many years, will be sold.

The ferry is an important feeder of Maysville's mercantile interests, and the people are to be congratulated that such an enterprising citizen as Captain Phister is now owner and master of it. Success and a long life to the Laurance and her owner.

The Late Dr. W. H. McGranaghan.

Dr. W. H. McGranaghan was born in Clarksville, Harrison County, Virginia, July 16, 1823, locating in Maysville in his eighteenth year. For over forty years the Doctor was a loyal and enthusiastic citizen of Maysville, gladly contributing with his well-known energy, his aid in every way to any cause looking to her prosperity. During her darkest financial straits, succeeding the failure of our first attempts to secure railroad facilities, much was due to his efforts in compromising the great burden of debt under which she was then struggling. He was induced to enter the Council on that issue, being made President of the Council twelve successive terms. While in Council he was made President of the School Board, working most enthusiastically for the improvement of the public schools. On his retirement he was most happy in the fact that Maysville had as good public schools as any city in the State. As far as he was concerned, the Doctor was retiring and enthusiastic in the practice of his profession, ever ready to respond to the call of the afflicted whether assured of any return for his services or not. He did an immense amount of charity work, often supplying, as well, necessary food and fuel for the poor of his patients who were unable to procure them. Hundreds of our citizens yet hold in remembrance his kindly offices as physician and friend while a resident of Maysville.

In 1888 his two daughters and all his grandchildren having removed from Maysville, he felt, as he himself expressed it, that he could not live without his children and grandchildren about him, and at the zenith of his professional success, having acquired a competency, he decided to leave the well-beloved home of his adoption, and removed to Peoria, Ill., where two of his daughters and nine of his grandchildren reside. In Peoria, as in Maysville, he soon had a large circle of friends; was elected to the School Board, and sent as its representative to several cities in that State, Indiana and Ohio to examine into and

report on the best methods of sanitary ventilation for the public schools.

The Doctor's ideal way of spending his last years had always been to end them on a Kentucky farm. In 1888 he returned to Kentucky, having two daughters and seven grandchildren living near Lexington. He purchased a fine farm and homestead nearly adjoining the home of his daughter, Mrs. Evan S. Ingels. His enjoyment of it was destined to be short-lived, however. In June, 1889, he had a second stroke of paralysis, affecting his whole right side and incapacitating him for the enjoyment of the home he had made. After long months of suffering, death came as a welcome relief at 9 a. m. November 21st, in the sixty-ninth year of his life.

He had always been a man of strong religious convictions, uniting with the Presbyterian Church very early in life. He was for a number of years an elder in the church in Maysville and for a time superintendent of the Sunday school. He was a man strong in his affections, generous and impulsive in disposition, and as a natural consequence, leaves a very large circle of warmly attached friends to mourn his death. Peace to his ashes.

Collection Boxes Not Much Used.

Collection boxes were at one time used in many churches. The old style is a shallow open box about seven inches long by five wide. It is lined with velvet and has a handle attached. Boxes of this style are still used, but collection boxes are now generally made circular in form. They are seven and a half inches in diameter and two and a half inches in depth. A plush mat is laid on the bottom, and the box is provided with a handle two feet or three feet long. Such a box of oak sells for \$3.50. Not many boxes are sold nowadays.—New York Sun.

A Dog's Love.

The attachment of the dog to man outweighs and almost obliterates attachment in him to his own race. There is something shocking to our high opinion of him in the callousness with which he will sniff at the stiff body of a brother dog. He will follow his master to the grave, and sometimes die on it, but the loss of his own kind leaves him unmoved. I never knew more than one exception to this.—Ouida in North American Review.

It was long thought that the water from melted snow was the purest of all water. This idea has been proven incorrect, as the reverse is the case. Snow is really a purifier of the atmosphere, attracting from it, as it falls, various impurities, and these are found in the snow water.

Some metals, as lead and antimony, condense on union; others, like gold and silver, expand. This, as well as the heat given out in alloying, especially when brass and bronze are formed, proves that an alloy is not a mere mechanical mixture but a true chemical compound.

Taking a mild bath while one is warm is not to be condemned if his circulation is not greatly disturbed and his power depleted, the one condition being alone necessary to successful bathing, viz., power in the organism to respond to the new conditions.

In Saxony pearl mussels are carefully opened and examined upon being taken out of the water without injuring them, special instruments being used for the purpose. Those which are found not to contain pearls are restored to their native element.

How much pleasanter it is to sit in a cab and think how much pleasanter it is to sit in a cab than it is to be walking, than it is to be walking and think how much pleasanter it is to sit in a cab than it is to be walking.—Stoughton Sentinel.

THE MARKETS.

Cincinnati Live Stock Market.

(Wednesday.)

Receipts of hogs, 8,200; cattle, 1,000; sheep, 650. Shipments of hogs, 1,692; cattle, 159; sheep, 184.

HOGS—Common, \$3.00@3.40; fair to good light, \$3.40@3.60; packing, \$3.50@3.65; selected butchers, \$3.65@3.75. Market lower.

CATTLE—Common, \$1.75@2.25; fair to medium, \$2.50@3.25; good to choice, \$3.50@4.00; fair to good shipping, \$4.00@4.75. Market active.

CALF—Common and large, \$3.50@5.00; fair to choice, \$5.25@6.00. Market higher.

SHEEP—Common to fair, \$2.50@3.50; good to choice, \$3.75@4.25; extra, \$4.75. Market dull.

LAMBS—Common to fair, \$4.25@4.00; good to choice, \$4.25@4.75; heavy shippers, \$4.00@4.75. Market weak.

Cincinnati Tobacco Market.

(Tuesday.)

The offerings were small, and there was a firm, steady market. The common and low grades were in good demand and prices generally accepted. The demand for common and medium grades was good. For good to fine leaf and all color grades the demand is active and full prices paid; the supply of these kinds was, however, light.

Forty-one hhd's (new) were offered as follows:

Miami Warehouse—3 hhd's at \$8.50, \$8.75, \$10.75; Globe Warehouse—19 hhd's at \$1.40, \$1.75, \$5.10, \$5.20, \$6.55, \$7.50, \$6.60, \$7.60, \$6.80, \$5.75, \$13.75, \$13.75, \$11.14, \$16.16, \$16.75, \$16.75.

Cincinnati Warehouse—8 hhd's at \$5, \$6.70, \$7.30, \$10, \$10.25, \$14.25, \$17, \$20.

THE Central Presbyterian Church's elegant new pipe organ has been received and is now being placed in position. It was made by Hook & Hastings, of Boston.

ABERDEEN'S MYSTERY.

The Latest Developments in the Martin Murder Case.

A special from Aberdeen was published in the Enquirer yesterday stating that information gathered by the Marshal shows that "Arthur Power, who was first suspected (of the murder of Ezekiel Martin) did not have a hand in the killing." The special added that startling developments were soon expected.

Some of Power's friends claim that the bullet that was taken from Martin's body would not fit the pistol carried by Power. One of the most suspicious circumstances urged against Power is that he left Aberdeen the night of the killing and has not yet been located. His friends say that he had for some time contemplated going away. It is a fact that on the day before the murder he told a relative in this city that he intended leaving Aberdeen.

It is also claimed by Power's friends that it can be proved that on the night of the killing a certain resident of Aberdeen entered a barroom and called for some liquor. He remarked: "Some tall s—n b—h has been following me around to-night, and if he keeps it up I'm going to give him some of this," pointing to a pistol he had drawn. After drinking the liquor the man left. Later in the night—after the shooting had been done—it is said this same man returned to the barroom and called for more liquor. This time he was pale and very much excited, and drank only part of the liquor he poured out.

It is also claimed by Power's friends that the ball taken from Martin's body will fit a pistol this man had borrowed from another resident of Aberdeen and had on the night of the tragedy. And in addition to all this, it is said that the man was seen taking some empty cartridges from a pistol the day after the killing. All these circumstances look rather suspicious.

It is now told that on the night in question, after the shooting had been done, three men were overheard talking in a small alley near the mill. Two of them left and were gone a short time. When they returned, the third one asked, "How is he?" "He's as dead as hell," was the reply.

"Murder will out" is an old saying, and the indications are that it will prove true in this case ere many days.

THE General Assembly of Kentucky will convene December 30. It will be called to order by Brother Kellar, of the Carlisle Mercury, Clerk of the last House.

If you will go to Kackley & McDougale and make a cash purchase they will show you how to use a \$200 cash register. It's a thing of beauty and a joy forever, they say.

MRS. ALICE DALLAS, of Cannelton, Ind., formerly of this city, is to be married on the 10th inst. We have not learned the name of the lucky man.—Carlisle Mercury.

A FELLOW giving Charles Allen as his name tried to work the check swindle at Ripley a few days ago, but failed. He struck a man who reads the papers and keeps posted.

An epidemic of colds of a very severe character struck this city the past week. In several instances, entire families were taken down with the disease. It is no doubt one form of the "grippe."

MR. R. H. BEARD, of Louisville, has succeeded Mr. Walter Blatterman as agent of the Standard Oil Company at this place. Mr. Beard and family have taken rooms at the Hill House for the present.

NELLIE McCLANAHAN, an eleven-year-old child, was playing with an old pistol at the home of her parents in Nicholas County, when it went off, (they didn't know it was loaded) and she was probably fatally wounded.

Among the real estate transfers recorded at Georgetown the past week is one from O. H. P. Thomas to Ellen Marvin, west half of lot 137 in Power's addition to Aberdeen, on which is a tobacco warehouse; consideration, \$1,800.

A MEETING of the Maysville Branch of the Merchants' Commercial Agency will be held at the Commercial Club rooms at 7 o'clock this evening. All members are requested to be present.

J. B. NOYES, Secretary.

THE following persons have received notice through M. C. Hutchins that pensions have been granted them, viz: Amos Gray, of Murphysville, \$8 per month from August 28, 1890; Kate McCallister, of this city, \$10 per month from July 11, 1890.

MRS. B. W. GOODMAN has received news that the residence of her sister, Mrs. Nora Brewington, at Aurora, Ind., was destroyed by fire Monday morning, together with most of the household goods. The insurance amounted to \$10,000, which will partly cover the loss.

WM. N. THOMPSON will address the public on the subject of the "Farmers' Alliance" at Sardis on Saturday night, December 5th.

An ordinance granting the Maysville Fuel, Light and Steel Company right to furnish fuel gas to the citizens has been agreed upon by the company and the committee from Council.

THERE has been some delay in completing the arrangements to heat the C. and O. depot with fuel gas. Mr. Harris returned last night, however, and the test will be made in a few days.

MESSRS. A. A. WADSWORTH and C. F. Ball are enjoying a fine hunt out in the Indian Territory. They sent home this week three wild turkeys and a deer, and wrote that they had killed a wagon-load of birds.

THE Carlisle Mercury reports that Mrs. Alice Dallas will be married December 10th, but it has not learned who is the lucky man. The BULLETIN is informed that the lucky man is none other than Mr. W. R. Gill, a highly esteemed citizen and successful farmer of Mason County.

THE alarm of fire about 3 o'clock this morning was caused by the burning of the stables in the rear of the McGranaghan and McDowell property situated on West Third street. The damage was trifling, as the stables were old buildings. It must have been the work of an incendiary.

FRANKFORT, November 16, 1891.—The game law is now out. Sportsmen in high glee. Their happiness will be much more complete by taking advantage of the new invention, "The Magazine Cartridge Vest." No sportsmen would do without it after using one. Call and see it. Frank Owens Hardware Company have the sale of them.

JOHN YOUNG, of Bracken County, committed suicide a few days ago by shooting himself. He borrowed the gun one day to go hunting and was found dead some time afterwards in the woods. He had tied one end of a string to the trigger of the gun and the other to a sapling, and by this means had pulled the gun off. He leaves a wife, whom he married three or four weeks ago.

MRS. LUMILLA McDOWELL died yesterday morning at the home of her sons, Douglas and Emory, on West Second street. She was born in Wayne County, Penn., January 15, 1818. She leaves six sons and one daughter. Her remains will be interred in the old family burying ground near Bridgeville, Bracken County, at 1 o'clock p. m. to-day, where the deceased was well known and had a wide circle of relatives and friends.

THE very best minstrel company that has been in Nashville, not only this season, but in years, is the justly famous Beach & Bowers' Minstrels, which opened at the Grand Opera House last night. It is the very best because it is novel and striking in almost every particular, and unlike any minstrel show that has come this way. It is away up and beyond such hackneyed shows as the Wilson's and the Thatcher's, and the unnumbered train of imitators that annually troop and tramp this way. The programme presented last night was full of brightness, freshness and minstrel originality. There was fun from start to finish.—Nashville Banner.

At the opera house to-morrow night.

County Court.

Augustus Morton qualified as administrator of Julia Ann Morton, with Q. A. Means as surety.

An inventory and appraisal of the personal estate of R. W. Johnson was filed.

An inventory and appraisal of the personal estate of Jackson Bruce and a sale bill of said estate were filed.

An inventory and appraisal of the personal estate of Susan Bruce, and a sale bill of same estate were filed.

An inventory and appraisal of the personal estate of John Stevenson was filed.

Here and There.

Mrs. J. Ed. Breen, of Lexington, is visiting relatives in this city.

MR. H. B. Bryson, Division Deputy under Collector McDowell, is in town.

A Tobacco Premium.

Premium of \$10 for best sample six hands bright leaf tobacco. Award to be made December 15th, 1891.

DULRY & BALDWIN.

Every backslider is a Judas who has sold Christ for a set price of some kind.

Some men join church with the very same kind of a motive that others rob a bank.

BROWNING & CO.

3 EAST SECOND STREET.

THE CHINESE WALL.

It Will Be the Barrier to the Rebels.

THERE THE FIGHT WILL BE MADE

All the Government Troops Beyond the Line Will Fall Back to the Wall and There Make One Desperate Resistance to Save the Empire—A Bloody Conflict in the Near Future.

SHANGHAI, Dec. 3.—Advices from Peking state that the government resolved, in view of the reported strength of the rebels, not to attempt to stay their passage short of the Chinese wall, where an effective resistance can be offered. The troops that are beyond the wall will probably fall back on that line. The rebels captured a great quantity of ammunition at Leao-Yang, also modern arms and equipments. Most of the garrison of Leao-Yang joined the insurgents. Among the spoils of that place was a quantity of field artillery, which the rebels are said to have taken with them on their march. The fight at the wall is expected to decide the fate of Peking, and should the government be defeated the emperor and his court will abandon the capital.

The rebel army is said to be not entirely Mongolian, but to contain a large number of Chinese colonies in Manchuria. The Chinese are greatly excited, and a close watch is kept by the foreign authorities for any symptom of disturbance or outbreak. The Chinese navy is as near the scene as possible, but in the present stage of the struggle is unable to give any aid to the government, the fighting being wholly inland. A large number of the rebels are armed with Mauser rifles, from the arsenal at Leno-Yang. Many of the Tartars are mounted.

In an interview at Tientsin, Viceroy Li Hung Chang stated that in his opinion the present outbreaks in China were not aimed at the reigning dynasty, but was attributable to the various causes tending to breed local discontent. The viceroy believed, he said, that the imperial dynasty was secure against danger. Li Hung Chang is sparing no time, however, in military and naval equipments.

FIRE ON WATER.

Steam Barge Destroyed at Cleveland, Ohio.

CLEVELAND, Dec. 3.—The steam barge Edward S. Pease, lying at a dock, caught fire yesterday from some unknown cause. The flames wrapped the entire after end of the vessel and the roof of the cabin soon fell in. She was valued at \$20,000, and the damage will be about half. The barge Planet, tied near here, was saved with difficulty. Two lives were lost by the fire. Philip Stutzman, of Buffalo, engineer, and the fireman, name unknown, perished. Stutzman rushed out of the cabin and looked forward and aft for a means of escape, but he was hemmed in by the flames. His clothing and the flames were described as standing out from his body, while his hands were veritable balls of fire.

He lowered himself down to the water on a rope and was finally compelled to drop the fire on his hands rendering it impossible to hold on any longer. Every effort was made to save him but without success. The fireman was in the hold in the after part of the boat and has not been seen since the fire. Anna L. Bannen, the cook, was severely burned. The body of the engineer has been recovered. The body of the fireman was found late last night in the hold of the barge.

Shot by His Wife.

BUFFALO, Dec. 3.—John B. Heir, a florist, doing business at 963 Ellicott street, was shot and probably fatally wounded by his wife, Magdalena, about noon yesterday. Heir was driving along Genesee street in East Buffalo, when his wife approached from behind and fired two shots, both of which took effect, one through the left lung and the other through the kidneys. Heir was removed to the hospital and is in a critical condition. Mrs. Heir was arrested. She stated that she had shot her husband because he had left her and gone to live with another woman. Her claims he was living with his cousin.

Destructive Prairie Fires.

EMPORIA, Kan., Dec. 3.—Destructive prairie fires have raged in different parts of Lyon county. In the northern part of the county yesterday the large apple orchard of Mrs. O. Ridenour, the stables, hay stacks, corn cribs, sheds, etc., on the ranches of William Robinson, William Houghton, Thomas Lozier, and many others were entirely consumed. On Monday a fire six miles south of here destroyed an immense amount of baled hay belonging to D. S. Richards, John R. Muddocks, J. F. Bartelle and others. The fires are now extinguished.

Fears of a Lynching.

FRANKFORT, Ind., Dec. 3.—Great excitement prevailed here yesterday over a well authenticated rumor that the citizens of the eastern portion of this county (Clinton) are organizing to lynch Jesse Jacobs for the killing of his brother, Ellsworth Jacobs, at Boyleston, Friday last. The murderer is now in jail in this city. Judge Doyal has instructed the sheriff to protect the prisoner at all hazards, and if necessary to call out the state militia. The feeling is intense.

"Land Bill" Alien Has Six Feet of Earth. COLUMBUS, O., Dec. 3.—At 10 o'clock yesterday morning the remains of "Land Bill" Allen were removed from the poor house and placed in the rotunda of the state house, where they remained for several hours, and were viewed by a great many people. At 2 o'clock Dr. Gladden, of the Congregational church, preached the funeral sermon and the body was then conveyed to Elmwood cemetery, where internment took place.

Death of a Divine.

WILKESBARRE, Pa., Dec. 3.—The Rev. Casper R. Gregory, a leading Presbyterian divine, of this city, died yesterday of typhoid fever.

STATE AND CHURCH.

Great Antagonism Between the Two in Rio Janeiro.

RIO JANEIRO, Dec. 3.—The antagonism between state and church is becoming acute. The government charges the clergy with having engaged in machinations for the restoration of the empire, and the clergy accuse the government of being hostile to the interests of the church. The clergy have never liked the republic, and have remained, with few exceptions, attached to the imperial house. Their feelings of hostility to the republic have been intensified by irregularity in the payment of salaries. When the official connection between church and state was declared abolished, the federal government engaged to provide for the payment of all salaries to the existing functionaries of the hierarchy and to support the chairs in the seminaries for one year, leaving it to the provinces to do as much more as they pleased in the interest of religion.

Most of the provinces have chosen to do nothing, and where priests have died, altars remain vacant for want of a salaried ministry. The Brazilians, unaccustomed to voluntary contribution for clerical support, are learning to neglect religion and the church sees the people slipping away from it. These circumstances have created a bitter feeling and tended to intensify the attachment of the clergy for the Catholic house of Braganza, which never neglected the church. The government, on the other hand, which had paid little attention to the signs of clerical discontent, now recognizes these clergy as politically hostile and possibly dangerous, and steps will doubtless be taken, on the re-assembling of congress, toward abolishing any remaining responsibility of the federal government for the support of the church establishment. Monsignor Spolverini, the papal nuncio, will shortly take his departure from Brazil to report the condition of affairs at the Vatican.

DYNAMITE EXPLOSION.

A Factory Destroyed and Five Men Instantly Killed.

NYACK, N. Y., Dec. 3.—An explosion occurred at the dynamite factory in Haverstraw yesterday afternoon, and the shock was felt for many miles. Five men were killed, as follows:

John Wadsworth, engineer of the works.
Peter Carlotta, an Italian.
Joseph Williams.
Joseph C. Addley.
All were workmen at the dynamite works.

Perry Lounsbury of Sing Sing, who was in a boat near the shore was also killed. A man who was in the boat with Lounsbury at the time escaped uninjured. The building which was blown up was a frame one, 50 by 150 feet. The building was set on fire by the explosion, and burned for several hours. The shock from the explosion was felt twenty miles away. A number of other buildings containing dynamite, about 150 feet from the scene of the explosion, were not injured.

The property belongs to the Clinton Dynamite company, of which William P. Foss, of Haverstraw, is the manager. Elmer Nash, the foreman of the works, was on the dock, a short distance away, and escaped unhurt. Glass was broken by the shock in Congers City, Rockland Lake, Nyack and other nearby places. The cause of the explosion is not known at present.

Cowardly Murder.

INDIANA, Pa., Dec. 2.—A cowardly murder was committed in Black Lick yesterday evening by William Clark, a young colored man. The victim was a man named Palmer, with whom Clark had quarreled. Last night Clark saw his adversary walking down the street. He ran up behind him and, without a word of warning, shot Palmer in the back, inflicting a mortal wound. Clark was immediately arrested and placed in jail. There is considerable excitement over the affair, and threats of lynching are freely indulged in, the community being especially incensed because of the unprovoked and cowardly nature of the murder.

The Last Heard from Emin Pasha.

BERLIN, Dec. 3.—Another dispatch to The Tageblatt from East Africa says that, when last heard of, Emin Pasha was marching in a northerly direction with a formidable force. He had over 9,000 men, in all of whom about 1,600 were armed with breech-loading guns and the remainder with muzzle-loading rifles. It was supposed that he was making in the direction of Khartoum.

Railroad Embarrassed.

LOUISVILLE, Dec. 3.—In the United Court in this city yesterday, on the complaint of the Central Trust company, of New York, and other creditors, the Richmond, Nicholasville and Beattyville railroad was placed in the hands of a receiver, John McLeod being appointed to act in that capacity. The liabilities aggregate nearly \$3,000,000.

Found Dead in Bed.

ZANESVILLE, O., Dec. 3.—W. C. Davis, of New York, representing the Stillman Remedies company, of New York, was found dead in bed at the Hotel Windsor here yesterday. He retired at 11 o'clock the previous night, and failed to respond to repeated calls. It was found that he had died fifteen hours before of hemorrhage of the lungs.

Hardware Store Burned.

CARROLLTON, O., Dec. 3.—Del Roy, a small town six miles south of here, was visited by a destructive fire yesterday. Tope Brothers, hardware merchants, lost \$8,000 in stock, with \$5,000 insurance. The building was entirely consumed. Total loss about \$13,000.

His Girl Gave Him the Shake.

CARROLLTON, O., Dec. 3.—Ed Smith, twenty-two years old, the son of a prominent farmer living near Kilgore, committed suicide yesterday by the revolver route. The only cause ascribed is that his best girl gave him the shake.

Steamer Aground.

FORT MONROE, Va., Dec. 3.—While attempting to make a landing at this port yesterday, the United States steamer Jamestown went hard aground near the Rip Raps. As yet she has suffered but little damage.
